Dear Ponderosa Heating and Cooling,

I was not sure what to do after high school before your generous donation. I did not have the money to even consider a university even though I deeply desired to continue my education. It was only through your help that I could finally accept the admission notice I received from OSU. I plan on getting a PhD in Biology and double majoring in Math and Science. I adore learning and was ecstatic to be able to continue to learn at a university. Thank you so much for all that you've done.

Sincerely,

Dear Mr. Kory MacGregor,

Thank you so much for your contribution to my continued education, I truly appreciate the help you are giving me to start out my college education at Oregon State University. I will be majoring in Bio-engineering; this degree will hopefully lead me on my path to medical school. I have gone into many hospitals and met with different doctors, nurses, and surgeons that have helped me to decide that I want to go to medical school in order to help as many people as I can just like they do everyday.

While in school I will also be a part of the music program as a member of the marching band, wind symphony, and various other bands. I play the euphonium, and would love to continue to have music be a part of my life. I also plan to join other clubs or organizations that interest, whether it be intramural sports or a club within my major. Thank you again for your generous contribution to my future.

Sincerely,

Jacob Clark

Roth Heating and Cooling,

I am writing to you with a letter of appreciation for awarding me with the Roth Heating and Cooling Scholarship at Oregon State University. You cannot truly understand how much this donation means to me and my family. It will help me pave the way through my four years at OSU and give me a jumpstart into my future. This scholarship is one of the reasons that I will hopefully be able to graduate from OSU debt free, which is a great accomplishment. I cannot show the depth of my gratitude in this letter so I hope it will suffice to say thank you. This scholarship truly means the world to me.

Sincerely,

Dear Pam Powell and other members of Roth Heating and Cooling,

Thank you for awarding me the Roth Heating and Cooling Scholarship. I appreciate it greatly. I do not think you will regret your decision. Over the next three years, and afterwards, I assure you that I will work hard to be the best I can be—in my major and in my life.

My dream is to become a physical therapist and help people whose bodies are not working the way they should. I had a hip issue a while ago, which physical therapists got me through, and I became intrigued by their profession. I am grateful to you for your support of my dream, and your help in my journey to make it a reality.

I am very motivated and plan on being enrolled full-time each college term, maintaining a high GPA, and continuing on in the Health and Human Sciences field. I plan on keeping my budget low and living frugally, I chose a co-op over dorm rooms, so I know that my sleeping and food arrangements will be taken care of, at a lower price. The money which you have awarded me will be spent wisely, on schooling, books, or housing, and I appreciate it very much because I am planning to live as simply as possible, but still must pay for these necessities. Your contribution will help me a lot. Thank you.

Sincerely,
